

MIDDLESEX BEACH ASSOCIATION PERMIT APPLICATION

SMALL PROJECTS UNDER \$25,000

MBA Building Permits are required in advance for all interior and exterior Construction, Repairs (please see Rules & Regulations for Construction), Tree Work, Demolition, Paving, and any other work.

a. Large Projects: Large Projects include any work valued at \$25,000 or more.

b. Small Projects: Small Projects include any work, including repairs (please see Rules & Regulations for Construction), landscaping, driveways, or tree work valued at less than \$25,000. MBA cumulates the value of work being done concurrently or in proximity on the same property to determine whether it is considered a Small Project or whether the collective work should be deemed a Large Project.

c. Demolition: Demolition includes substantially deconstructing, demolishing, disassembling, removing or otherwise reducing an existing structure, whether or not it will be replaced.

d. Emergency Repair Work: Emergency repairs include only the minimum, immediate, short-term work necessary to control unexpected and immediate threats to people or property which, if not remediated, would reasonably result in proximate injury, death or loss of property. An MBA Building Permit is not required to initiate Emergency Repair Work. MBA President and/or Building Committee must be notified of initiation of emergency work so an approved permit may be issued.

Ownership Entity: _____ MBA Address: _____
